

Artur Donadel Balthazar

Florianópolis - Brazil | Italian citizen willing to relocate | +55 48 99128 7795
arturbalthazar@gmail.com | [linkedin.com/in/artur-balthazar](https://www.linkedin.com/in/artur-balthazar) | [Portfolio](#)

Profile

Designer and creative technologist with an academic background in mechanical engineering and a degree in product design. Passionate about bringing original ideas to life, bridging the gap between design and engineering. Skilled in CAD, surface and organic 3D modeling; computational design workflows; additive manufacturing; and software to automate and extend design and fabrication tasks. Strong focus on user-centered design and prototyping, with hands-on experience turning concepts into physical products. Holistic, end-to-end approach to projects, comfortable planning business models and running my own ventures. Effective communicator in multidisciplinary teams, working proactively toward high-quality results.

Skills

Knowledge-based skills: Surface, organic and CAD modeling; 3D art pipeline; asset optimization; environment and scene design; photogrammetry and 3D scanning; 2D graphics and texture creation. 3D tools development; web development; front-end development; back-end integration; AI-assisted scripting and debugging; UI/UX design;

Soft skills: Problem-solving, creativity, originality, eye for detail, proactivity, task-driven, self-motivation, adaptability, flexibility, willingness to learn and share, teamwork, time management, organization, communication, positive attitude.

Software, tools and programming languages:

- Blender, Maya, 3DsMax, SketchUp, Fusion 360, Rhinoceros, Unity, Unreal Engine;
- Adobe Substance, Photoshop, Illustrator, Figma;
- Blender API, Python, JavaScript, TypeScript, Babylon.js, Git/GitHub; Supabase; React; Cursor;

Languages: Portuguese: Native; English: Advanced; Spanish: Intermediate;

Experience

3D Designer & Tools Developer

Meetskai - AI & Metaverse solutions

California, US (remote) - Jan 2023 - Ongoing

- 3D design and optimization of assets and 3D scenes for WebGL applications.
- Design and maintenance of *Meetskai Suite*, a complete set of Blender tools used by the 3D team, aimed at reducing friction in the 3D scene creation process, making it faster, more reliable and intuitive.
- Development of Babylon.js demo scenes to gather attention of potential clients;

3D Designer for AR

More Than Real - Augmented reality for sales and marketing

São Paulo, Brazil (remote) - Jan 2022 - Ongoing

- Working as a freelancer in a wide range of 3D projects.
- 3D modeling, texturing and optimization of Nescafé Dolce Gusto coffee machines for WebAR.
- Asset and topology optimization of 3D car models for car manufacturer Stellantis, creating UV maps, realistic textures, texture baking and materials for WebAR visualization.

3D Printing Manager & Founder

Edge Planning Center - Digital dentistry and surgical planning

Florianópolis, Brazil - Jan 2021 - Dec 2021

- 3D modeling and printing of bite splints, surgical guides, jaw study models, converted ultrasound images and other types of biomodels for dentistry in plastic and resin materials.
- Responsible for the business management, including accounting, inventory management and customer service.

Product Design Intern

Done 3D - 3D printing and Digital Dentistry
Ribeirão Preto, Brazil - Oct 2020 - Dec 2020

- 3D modeling and 3D mesh manipulation, adaptation and optimization for 3D printing.
- 3D printing of both plastic and resin objects.

3D Printing Designer (Self-employed)

Baltha Maker - 3D printing solutions
Florianópolis, Brazil - Feb 2018 - Dec 2021

- 3D modeling and optimization in various softwares, depending on clients needs.
- 3D printing and finishing of various products in both plastic and resin, such as replacement parts, final parts, prototypes, presentation models, trophies, gifts, etc
- Business management, responsible for the office's accounting, marketing, customer service and inventory management.

Product Design Intern

Pronto 3D - Rapid prototyping laboratory inside UFSC
Florianópolis, Brazil - Mar 2019 - Jul 2019

- Development of a 3D printed Arduino-based remote control car, including 3D modeling and printing, C++ programming for Arduino and integration with an Android app.
- Experience with the main digital fabrication technologies such as 3D printing, 3D scanning, laser cutting, machining and thermoforming.

Research & Development Intern

Cata Company - Smart safe manufacturer
Florianópolis, Brazil - Mar 2017 - Feb 2018

- 3D renderings of the company's products for marketing purposes;
- Development of technical manuals, reports and assembly instructions, including 3D graphics of the safes and document design;
- Web support pages management.

Architecture & Interior Design Intern

Eder Frank Architecture - Architecture Office
Criciúma, Brazil - Mar 2012 - Jun 2012

- Conversion of hand drawings and projects to 3D models and renderings within Google SketchUp;

Education

- **Bachelor's Degree in Product Design**, Federal University of Santa Catarina - Brazil, 2018 - 2021
- **Bachelor's Degree in Mechanical Engineering (*split graduation*)**, Purdue University Northwest, USA, 2015 - 2016
- **Bachelor's Degree in Mechanical Engineering (*Incomplete*)**, Federal University of Santa Catarina - Brazil, 2012 - 2017
- **Design Technical Course**, SATC - Brazil, 2009 - 2010
